## CONCEPT NOTE

In recent decades, environmental issues have become critical global challenges. These environmental disruptions have profound impacts on human life, affecting health, livelihoods, food security, and overall well-being. As stewards of the future, students play a vital role in shaping a more sustainable world. Their awareness, actions, and advocacy can lead to meaningful changes both locally and globally.

This seminar aims to explore the deep interconnection between the environment and human life, emphasizing why protecting the environment is not just an ethical duty but a necessity for survival. It will also highlight the proactive role students can play in environmental conservation and sustainability.
